We Are SAFEWAZE.

Our Brands

SAFEWAZE

SafeWaze is a comprehensive line of high performance fall protection products that includes lifelines, lanyards, anchors, and rescue systems. The SafeWaze line features high quality Class A and Class B retractable lifelines, energy absorbing lanyards, anchors and anchor straps, along with other fall arrest items that are ideal complements for the Pro+, Pro, and V-Line product lines.

SAFEWAZE PRO+

SafeWaze Pro Plus is a premium line of fall protection products. The Pro Plus line features high end harnesses made with our Flex material, quick connect and release, and optional extra padding which are ideal for those who are looking for maximum comfort and mobility. This series also includes products and accessories designed for specific industries including: wind energy, oil & gas, solar, utilities, and welding.

SAFEWAZE PRO

SafeWaze Pro is a versatile line of high-performing fall protection products at a competitive price. The Pro line of harnesses features high quality, high performance materials with a variety of connection and adjustability features which are ideal for those who are looking for added comfort.

SAFEWAZE V-LINE

SafeWaze V-Line is a diverse and economical line of fall protection products. The V-Line line of harnesses are made with quality materials and are ideal for those who are looking to achieve compliance with a value priced product.

SAFEWAZE SAFELINK

SafeWaze SafeLink is a comprehensive four-person horizontal lifeline system specifically designed for low clearance work spaces. The SafeLink system includes crucial components needed to work safely in horizontal, low clearance, and leading edge environments.

Training

You’ve invested in fall protection equipment, now learn how to put it to use – safely and effectively. SAFEWAZE offers a full range of training programs to help ensure that your needs are met when it comes to understanding regulatory and application issues regarding fall protection. For your convenience, these programs can be scheduled for your location, or at our North Carolina facility.

Our training programs include but are not limited to:

- Fall Protection 101
- Authorized Inspector
- Competent Person Fall Protection
- Train the Trainer

Engineering Services

Sometimes, your fall protection solution cannot come out of a box. SAFEWAZE offers a full line of engineering services that include:

Our training programs include but are not limited to:

- Site Assessment
- Project Design
- Product Fabrication
- Project Install
- Structural Certification

Our products include:

- Horizontal Lifelines
- Rigid Rail
- Ladder Safety Systems
- Customized Roof Systems
SafeWaze Pro Plus is a premium line of fall protection products. The Pro Plus line features high-end harnesses made with our Flex material, quick connect and release, and optional extra padding which are ideal for those who are looking for maximum comfort and mobility. This series also includes products and accessories designed for specific industries including: wind energy, oil & gas, solar, utilities, and welding.

B Flex Construction Harness
FS-FLEX360
• Free floating comfort back pad
• Removable grommet belt
• Grommet leg straps
• Side positioning D-rings
• Sizes: S, M, L, XL, 2XL

C Flex Premium Vest Harness
FS-FLEX280
• Quick release leg buckles
• Single D-ring
• Sizes: S/M, L/XL, 2XL

Other Options:
FS-FLEX250 Cool air leg pads

D Flex Premium Construction Harness
FS-FLEX253
• Free floating comfort back pad
• Removable grommet belt
• Quick release leg buckles
• Comfort leg pads
• Side positioning D-rings
• All aluminum hardware
• Sizes: S, M, L, XL, 2XL

Other Options:
FS-FLEX253-FD Front D-ring

E Flex Iron Workers Harness
FS-FLEX270
• Sewn-in comfort back pad
• Removable grommet belt
• Grommet leg straps
• Grommet adjustments
• Side positioning D-rings
• Sizes: S, M, L, XL, 2XL

D Premium Wind / Rescue Harness

FS227

- Aluminum hardware
- Front rescue ring
- Front suspension ring
- Side positioning rings
- All quick release buckles
- Backrest ergonomically designed to improve comfort and support
- Design prevents neck irritation and shoulder strap slip
- Sizes: S/M, L/XL, 2XL

Other Options:

FS227-T Convert the FS227 to a tower erection harness with the comfortable and versatile tower erection seat. Easily adapts to our patent pending FS227 harness.

These products are designed specifically for the wind energy, tower erection, and oil & gas industry. They are durable, comfortable and practical for the demands and requirements of these industries.

**PRO+**

**B Wind Energy Harness**

FS377
- Light weight aluminum hardware
- Front rescue D-ring
- Free floating comfort back pad
- Grommet legs and belt
- Front lanyard keepers
- Fall indicators
- No tangle D-ring pad reduces web knotting, and relieves D-ring back pressure
- Aluminum side positioning D-rings
- Sizes: S, M, L, XL, 2XL

**C Flex Premium Wind Energy Harness**

FS-FLEX253-FD
- Free floating comfort back pad
- Removable grommet belt
- Quick release leg buckles
- Cool air leg pads
- Side positioning D-rings, and Front D-ring
- Sizes: S, M, L, XL, 2XL

**D Oil Derrick Harness**

FS77635-OD
- Derrick pad connections that incorporates work positioning rings with a ridged core, and tongue buckle belt
- Chest D-ring, and side positioning D-rings
- Sizes: S/M, L/XL, 2XL

**E Premium Harness with Detachable Seat**

FS-FLEX255
- Pro Plus comfort shoulder pad
- Detachable suspension seat with 2 D-rings and aluminum brace
- Dorsal, front, and side positioning D-rings
- Quick release chest and leg buckles
- Sizes: S, M, L, XL, 2XL

SERIES FEATURES:

**Dielectric/Arc-Flash**
- Hardware is light weight
- Dielectric manufactured design
- Dielectric hardware 35kv rated
- 40 Cal. rating
- Meets ASTM F887 electric arc-flash requirements

**Fired Rated**
- Nomex® cover / Kevlar® core
- Fire rated harness 700° F
- Ideal for critical use area
- Passes NFPA 1971/1981 heat test and flame test
- Webbing 7,000 lbs tensile strength

**Welding**
- Nomex® cover / Polyester core
- Prevents welding burn slag
- Surface at 700° F

**Arc-Flash Quick Connect Harness**

SW77225-UT-3QC
- Dielectric quick connect chest and legs
- Single D-ring
- Sizes: S/M, L/XL, 2XL

**Other Options:**
- SW77225-UT-QC Pass through chest, and dielectric quick connect leg straps
- SW77225-UT-2QC-SL Pass through chest, dielectric quick connect legs, and soft loop back D-ring

These products are designed for utility, fire-rated, and welding applications.

RETRACTABLES / ENERGY ABSORBING LANYARDS

CLASS A RETRACTABLES

A  FS-EX1006-W

- 6’ Length
- High strength housing
- 3/4” Aluminum snap hook
- Swivel top indicator
- Meets ANSI Z359.14 Class A Standards
- Rated at 400 lbs

The high strength polymer housing along with aluminum components, and ultra high molecular weight webbing make the 1006 series one of the lightest SRD’s available. The 1006 series comes in single and dual leg units with standard aluminum snap hooks, aluminum rebar hooks, or steel rebar hooks.

B  FS-EX1006-W-RBH

- 6’ Length
- Large 2 1/2” aluminum rebar hook
- High strength housing
- Swivel top indicator
- 6 ft. length
- Meets ANSI Z359.14 Class A Standards
- Rated at 400 lbs

C  FS-EX10065-W-BWB

- 6’ Length
- (2) 3/4” aluminum snap hooks
- High strength housing
- Swivel top indicator
- Meets ANSI Z359.14 Class A Standards
- Rated at 400 lbs

D  FS-EX10065-W-RBH-BWB

- 6’ Length
- (2) Large 2 1/2” aluminum rebar hooks
- High strength housing
- Swivel top indicator
- Meets ANSI Z359.14 Class A Standards
- Rated at 400 lbs

E  FS-EX20065-W-RBH-BWB

- 6’ Length

RETRACTABLES / ENERGY ABSORBING LANYARDS / EXTENDERS

ENERGY ABSORBING LANYARDS

G FS88580
- V-LINE
- 6' Length
- Stretch Tubular Webbing allows for maneuverability
- Streamline shock limits fall to 3.5 ft
- Double locking snap hooks

Other Options:
FS88581 Dual-leg with snap hooks

H FS88585
- V-LINE
- 6' Length
- Stretch Tubular Webbing allows for maneuverability
- Streamline shock limits fall to 3.5 ft
- 1 Snap hook, and 1 Rebar hook

Other Options:
FS88586 Dual-leg with Rebar Hooks

I FS88590
- V-LINE
- Adjustable range 4' - 6'
- Stretch Tubular Webbing allows for maneuverability
- High-strength polyester stitching
- Double locking snap hooks

Other Options:
FS88591 Dual-leg with double-locking snap hooks

J FS88595
- V-LINE
- 4' - 6' Length
- Stretch Tubular Webbing allows for maneuverability
- Elastic webbing allows for maneuverability
- Rebar hook designed to fit Symons Form
- 1 Snap hook, and 1 Rebar hook

Other Options:
FS88596 Dual-Leg with Rebar Hooks

K FS813
- 18" D-ring extender with double locking snap hook on one end and D-ring on the other

Our energy absorbing lanyards provide maneuverability, durability, and flexibility. As a connector, they help complete your 3-point fall protection system.

*ALL snap and rebar hooks are 3,600 lbs gate rated

CARABINERS / POSITIONING DEVICES / ROPE, VERTICAL ROPE LIFELINES, & FALL ARRESTERS

CARABINERS

- **A FS1015**: 1/16" Steel
- **B FS1016-GR**: 1/16" Aluminum
- **C FS1017**: 1 3/4" Steel
- **D FS1018**: 2" Aluminum
- **E FS1025**: 1 3/16" Steel
- **F FS1026**: 2 5/64" Steel

POSITIONING DEVICES

- **G FS060 (26"") & FS061 (19"")**
  - Chain assembly
  - Large steel swivel rebar hook, 3,600 lb gate-rated double locking snap hooks

Other Options:
- **FS060-E**: 2 Adjustable quick links (26"") non-swivel
- **FS060-GCC**: Gates Column Clamp (26"")
- **FS060-WEB**: (18"")

- **H FS33210**
  - 6' 5/8" Polydac rope positioning lanyard with locking snap hooks

- **I FS33200**
  - 6' rope positioning lanyard with wear sleeve, dual-cam fall arrester, one snap hook and a thimble eye

- **J FS88860**
  - 6' Positioning lanyard with double locking snap hooks
  - 1" Polyester webbing

Other Options:
- **FS33310**: Adjustable with range of 4' - 6'

CARABINERS / POSITIONING DEVICES / ROPE, VERTICAL ROPE LIFELINES, & FALL ARRESTERS

ROPE / ROPE LIFELINES / FALL ARRESTERS

A Bulk Rope

- Heavy duty Dacron construction, Polyester jacket ensures abrasion resistance, durability, and low elasticity

Available Lengths:
- FS700-58600: 5/8" - Bulk Rope /600'
- FS700-581200: 5/8" - Bulk Rope /1200'

B FS875 / Rope Termination Plate

- Rope anchor replaces splicing in synthetic rope
- Use with 5/8" and 3/4" rope

*Carabiner and rope sold separately

C Rope Lifelines

- Rope lifelines assembled from our high quality bulk rope

Available Lengths:
- FS700-25: 5/8" - Rope lifeline /25'
- FS700-50: 5/8" - Rope lifeline /50'
- FS700-75: 5/8" - Rope lifeline /75'
- FS700-100: 5/8" - Rope lifeline /100'
- FS700-150: 5/8" - Rope lifeline /150'
- FS700-200: 5/8" - Rope lifeline /200'
- FS700-250: 5/8" - Rope lifeline /250'
- FS700-25GA: 5/8" - Rope lifeline /25' with FS1117 fall arrester attached
- FS700-50GA: 5/8" - Rope lifeline /50' with FS1117 fall arrester attached
- FS700-50GA-3E: 5/8" - Rope lifeline /50' with 3'/ energy absorbing lanyard attached to FS1117 fall arrester

D-F Fall Arresters

- FS1117 Dual Cam - stationary
- FS1118 Removable - trailing stainless steel
- FS1120 Removable - trailing steel

BEAM / REMOVABLE / MINING / VERSATILE / ROOF / ANCHOR STRAPS / SPECIALTY

BEAM / REMOVABLE CONCRETE & STEEL / MINING

A FS860 / Beam
- Premier anchor
- Reduced friction nylon rollers
- Center positioning retainer prevents jamming on beam
- Double - toothed pawl
- Range 3 1/2" to 14"
- Overall length 18.25"
- Beam flange thickness capacity 1 1/4"

B FS861 / Beam
- Most affordable quality anchor
- One-handed quick release latch
- D-ring prevents jamming on beam flange for smoother sliding
- Range 3 1/2" to 13 1/4"
- Overall Length 18.50"
- Beam flange thickness capacity 1 1/4"

C FS-EX210 / Beam
- The lightest and nimblest of its kind
- Unique components, including our swivel D-ring technology
- Range 3 1/2" to 14"
- Overall Length 20"

Other Options: FS-EX211 with a 12"-1" thickness

D FS865 / Stationary
- Fits vertical and horizontal positions
- 2 Handled locking wing nuts
- 3 Attachment points (snap hook, carabiners, lifelines)
- Fits up to 12" wide and 1" thickness
- Overall Length 20"

E FS-EX212 / Beam Trolley
- Superior performance, and strength
- Lightest and nimblest of its kind
- Reusable clamp incorporates a variety of unique components, including our swivel D-ring technology
- Range 3" to 10"
- Length 16" / Depth 5.75" / Height 6.50"

F FS885 / Girder Grip
- Mobile anchorage point for metal/steel structures
- Can be used vertically or horizontally
- Fits 3/4" diameter hole
- Overall Length 9.5"
Anchors

BEAM / REMOVABLE / MINING / VERSATILE / ROOF / ANCHOR STRAPS / SPECIALTY

BEAM / REMOVABLE CONCRETE & STEEL / MINING

G  FS-EX214 / Concrete
- Removable
- Anchor swivel, 10K concrete anchor with 3/4" sleeve anchor
- Bolt 5 3/4" / Mega Swivel 4 1/2" / Overall Length 8 3/4"

Other Options:
FS-EX216 Mega Swivel 10K Steel Anchor with Steel Mounting Kit

H  FS876 / Concrete
- Removable
- Exclusive “Easy Button” feature boosts productivity by providing immediate anchor removal
- Virtually eliminates the need for tools to remove a stuck anchor from the hole – giving the user instant mobility
- 5,000 lbs max capacity
- 11" overall length

I  FS-EX110 / Concrete
- Removable
- For use in concrete substrate only
- Inserts and removes in seconds
- 1" Fall Protection with 10,000 lbs max capacity
- Overall length 13.75"

Other Options:
FS-EX111 1" Multi-Use with 10,000 lbs max capacity

J  FS-EX213 / Concrete
- Removable
- Easy to install and remove for repeated use
- Great applications where 100% retrievability and durability is a factor
- Bolt 6 1/4" / Mega Swivel 4 1/2" / Overall Length 9"

K  FS-EX237 / Mining
- MEGA Swivel 10K mining anchor
- Used in underground mining and tunneling
- Fall protection (39mm); Max capacity: 10,000 lbs
- Bolt 6 1/4" / Mega Swivel 4 1/2" / Overall length 9"

L  FS-EX235 / Mining
- Portable friction rock bolt anchorage
- Inserts directly inside friction rock bolts
- Fall Protection (39mm); Max capacity 10,000 lbs
- Overall Length 17"
Anchors

BEAM / REMOVABLE / MINING / VERSATILE / ROOF / ANCHOR STRAPS / SPECIALTY

VERSATILE

A FS-EX225 / Steel
- Anchor swivel
- 5K 316SS Steel Kit
- 5/8”x4” 316SS bolt, flat washer, nylon locknut

B FS-EX231 / Concrete
- Anchor swivel
- 5K Concrete anchor with 1/2” sleeve anchor

Other Options:
FS-EX232 Anchor swivel, 5K steel anchor with 1/2”x4” G8 steel bolt, lock washer, and locknut

C FS888 / Steel
- Designed for free moving
- Minimum tensile strength 5,000 lbs
- Zinc plated steel D-ring, and Forged steel plate

D FS-EX219 Weld on Puck
- Mega Swivel 10K D-ring
- Puck with 5/8-11” Spirallock® thread
- 5/8-11x1.75” G8 HH bolt

E FS887 D-Bolt Anchor
- Single point anchor
- 5K anchor point for bolt on applications on approved structures 3” or less

F SW-EX100 Straight Loop Insert / Concrete
- Pre-installed receptacle that is cast-in place during construction of the surface for the purpose of attaching an anchorage connector
- Twice the strength rating of a concrete strap
- Plastic bolt included is 5/8”-11.1”
- Works with Mega Swivel SW-EX150
- Compatible with any anchorage connector that is designed for use with Grade 8, 5/8”-11” bolt

Other Options:
SW-EX100-KIT includes Straight loop insert, mega swivel 10k anchor, precast bolt assembly

G FS-EX112 Toggle Lok / Removable / Reusable
The removable Toggle Lok anchorage connector is designed for fall protection, lifeline systems, restraint, work positioning, suspension, tie-back anchoring, and more. Easy to use, removable anchorage connector.
- Unmatched safety
- Easy use, and versatility
- Works on both precast concrete, and steel flanges

Other Options: FS-EX113 Multi-Use; Max capacity 5,000 lbs
Anchors

VERSATILE

FS-EX220
- Baking Plate anchor point
- Designed for reinforced cinder block, chillers or AC unit walls
- Bolts available from 4” to 14”
- Many other applications
*(Kit not included, back plate only)*

FS-EX234
- Drop Through anchor point
- 1/4” Steel plate with a 8 1/2’ cable attached to a swiveling D-ring
- Drops through opening in any 1-3/4”-2” substrate
- To be used as a 5,000 lbs overhead anchor

FS-EX325
- 12” Permanent Roof Anchor
- Easy Installation
- For use on wood, concrete, and steel
- Can be used with horizontal lifelines

FS-EX326
- 18” Permanent Roof Anchor
- For use on wood decking material
- Galvanized steel
- Can be used with horizontal lifelines

SW-EX280
- 14.5” Cast into concrete Tie-Back Anchor
- Easy Installation
- Engineered to an ultimate load of 5,400 lbs
- Pre-engineered for cast in place applications
- Single person use

SW-EX281
- 14.5” I-Beam Wrap Tie-Back Anchor
- Easy Installation
- Engineered to an ultimate load of 5,400 lbs
- Single person use
Anchors

ROOF

A  FS870
• Reusable roof anchor
• Galvanized steel

B  FS871
• Disposable roof anchor
• Galvanized steel

C  FS-EX310-1
• Reusable roof anchor for wood or metal
• Installs with 3 threaded fasteners or 6 nails

D  FS-EX311
• Single standing seam roof anchor
• Designed for sloped or flat roofs

E  FS873
• Deluxe swivel anchor with D-ring and slot for retractable device
*(Retractable not included)

F  FS874
• Deluxe standing seam anchor with D-ring and, slot for retractable device

  - 6' 1 3/4" polyester webbing with 3" reinforced webbing
  - *Other lengths available

- FS811
  - 6' 1 3/4" polyester webbing
  - *Other lengths available

- FS812
  - Adjustable
  - 4'-6'; 1-3/4" polyester webbing

- FS815
  - 18" scaffold anchor

- FS830
  - 5/16" coated cable flip line with loop ends
  - 24" length

- FS830-C6
  - 6' coated cable cross arm strap
  - Pass through O-rings

- FS880
  - Heavy duty 4' length
  - Wear sleeve
  - D-ring and sewn eye
  - *Other lengths available

- FS-EX302
  - 2" Galvanized steel holding box
  - Heavy-duty 4' length
  - 2 D-rings
  - **Other Options**: FS-EX304 6' length

- FS814
  - Anchor extension with rebar hook

- FS-EX400-15
  - Ratcheting tensioner
  - 15' length
  - For use around booms, columns, and posts

- FS88811-HW
  - 6' Heavyweight cross arm strap
  - 1 3/4" Heavyweight polyester webbing
  - Rated up to 400 lbs.

Other Options FS-EX400-30 30' length

BEAM / REMOVABLE / MINING / VERSATILE / ROOF / ANCHOR STRAPS / SPECIALTY

SPECIALTY

A Leading Edge Roof Reach
FS-EX330-LERF
- Can break down and telescope to be small enough for easy transportation
- Modular design makes it a possibility to carry it up in pieces
- Quick release pin design makes it easier to assemble with no additional tools needed
- 100 lb. weights have 2 handles for 2 workers to carry with ease
- Moving handles allow for 4 workers to move the system in a practical manner
- Large 12” Rubber on cast wheels allows it to roll over debris and make maneuvering it more favorable
- Saves hours not having to set-up temporary systems
- Creates less of a tripping hazard than that of a cable lifeline system
- Reduces swing fall hazards that are present with a lifeline system

Specialty Horizontal Lifeline Kits

B FS805-60KM
- 2-Person portable 60', 80', or 100' kernmantle rope horizontal lifeline
- 2 Carabiners
- 2 Cross-arm straps
- 2 O-rings
- Energy absorber
- Steel tensioner
- Transport bag

C FS806
- 2-Person portable 60', 80', or 100' cable horizontal lifeline
- Turnbuckle
- 2 Carabiners
- 2 O-rings
- 5/16" Fist grips
- 2 Cross arm straps
- Energy absorber
- Transport bag

D FS807
- 3-Person portable 60' kernmantle rope horizontal lifeline
- 1 rope tensioner
- 2 Carabiners
- 3 O-rings
- 2 Cross-arm straps
- Transport bag

E FS808
- 4-Person portable 60', 80', or 100' double braid rope horizontal lifeline
- 2 Carabiners
- 1 Captive swivel eye
- 2 Cross-arm straps
- 1 SW-EX555-1 Tensioner
- 4 O-rings
- Transport bag

BEAM / REMOVABLE / MINING / VERSATILE / ROOF / ANCHOR STRAPS / SPECIALTY

SPECIALTY

F Safe Reach

FS-FSP17000-SR

Safe Reach is a free standing, rolling structure which can be maneuvered around to virtually any top side maintenance requirement.

- Provides 2 man fall arrest protection
- Can be used inside or outside
- Can be designed with wheels for manual movement or equipped for forklift or other mobile connection, including tow bar
- Developed originally for aircraft applications but can be used in several industrial applications
- Easily customized to meet your needs and specifications
- Meets or exceeds all applicable OSHA and ANSI standards

G Heavy Weight Anchor

FS-FSP17010-HWA

- Simple design can break down to fit onto a standard 48” x 40” pallet
- Easy to assemble and break down
- Non-penetrating roof top solution
- Weights are 50 lbs. each allowing the potential for one worker to lift unassisted
- Temporary non-destructive solution
- Swivel bracket can accommodate different length SRLs
- Meets or exceeds all applicable OSHA and ANSI standards

H Guardrail

FS-EX340-6

- 100% Portable 6’ Guardrail segment with one weighted base - Kit
- Holes do not need to be drilled
- Positioning of rails can be used in multiple directions
- Powder coated finish on all rail section

Kit Options:

FS-EX340-8 8’ Guardrail segment with one weighted base - Kit
FS-EX340-10 10’ Guardrail segment with one weighted base - Kit

Options:

FS-EX340 Guardrail weighted base
FS-EX341 Guardrail segment 6’
FS-EX342 Guardrail segment 8’
FS-EX343 Guardrail segment 10’

Options:

FS-EX344 Guardrail weighted base moving dolly
FS-EX345 Guardrail swing gate with weighted base 6’
FS-EX346 Guardrail swing gate with weighted base 8’
FS-EX347 Guardrail swing gate with weighted base 10’
SAFEWAZE™ Mobile SafeLink system is the result of a decade of development. It addresses the difficulties and limitations of working at leading edges on the top surface of a building under construction as well as other applications where workers are required to work horizontally, and a low clearance fall hazard exists.

The STOPLINK Brake limits arresting forces, which allows for more versatility in fall protection coverage.

*Can be used with PRO or PRO+ Harnesses
HORIZONTAL LIFELINE

MOBILE SAFELINK HORIZONTAL LIFELINE

A StopLink Brake Assembly

FS-EX2503-SL
- Designed to limit the maximum arrest load to no more than 1,000 lbf on end anchorages
- Aluminum housing
- Ultra high molecular weight webbing
- Stainless steel connectors

B SafeLink Cable Retractable

FS-EX2530-G-SL
- 30’ Length
- High strength polymer housing
- 3/16” galvanized steel cable
- Forged steel snap hook
- Ceramic entry with cleaning brush to reduce internal contamination
- Heavy duty rubber shock protector and pull grip
- Rated for subdued edges

Other Options:
FS-EX2550-G-SL: 50’

C Form Link

FS-EX2502
- Column mounted rebar bracket for mounting post

D Rebar Link

FS-EX2507
- Mounting on stirrup rebar

E EZ Link

FS-EX2502-DBL
- Mounting on stirrup rebar

SafeLink Kit Options:
FS-EX10000: SafeLink Come-A-Long
FS-EX10500: SafeLink Turnbuckle
OSHA regulations state that a rescue plan must be in place in the event of a fall when working at heights. SAFEWAZE offers a variety of products to assist you in your rescue planning operations.

**A Power Assisted Rescue Descender Kit**

**FS903PR-130**
- Manual Ascend / Descend device with carabiner
- Rescue hand wheel with drill attachment point
- 130’ Rescue rope (steel carabiner on each end)
- (1) FS812 Cross-Arm strap
- 12’ Extension rescue pole
- Kit storage bag with pole compartment

**SYSTEM FEATURES:**
The Power Assisted Rescue Descender System is the most versatile constant rate descender on the market today. It offers the versatility of rescue, evacuation, and assisted lifting capabilities. The device is ideal for emergency escape from high rise structures.

- **Rope Friction Points** - For operator controlled descents (both sides)
- **Heat Dissipating Fins** - Cooling fins are an integral part of the housing, it provides removal of heat build up during a descent
- **Lock-off Points** - Non-mechanical integrated lock-off points (both sides) for use during remote or direct rescue
- **Durable Wear Points** - Replaceable wear points for extended life and increased durability.
- *Drill attachment point located on the other side

**B Evacuation Descender**

**FS905-300**
- Evacuation/Manual Descend device with carabiner
- Allows for quick, and easy descent for user to reach the ground safely from high rise structures
- 300’ Rescue rope (steel carabiner on each end)
- (1) FS812 Cross-Arm strap
- Storage bag
SPECIALTY
RESCUE & CONFINED SPACE

C Suspension Trauma Steps
FS902
• 6’ Length web step system
• Connect at dorsal D-ring
• Relieves body pressure

D Rescue Ladder
FS-EX243
• 18’ fast drop ladder in ballistic nylon deployment bag
• ANSI Steel carabiner for quick attachment
Other Options:
FS-EX243-BL Belay System which has a rope pulley that allows co-worker to raise the individual

E Fixed Ladder Climb System
FS983
• 3/8” Diameter cable system, 2 man safe operation
• ANSI A 14.3 Ladder safety requirements
• Removable dual cam wire grab (FS1119): please specify 3/8” or 5/16” cable
• Sealed anchor head with impact attenuator
• Cable stand-off (every 25ft)

F Working Chair System
FS995
• Can be operated by a topside worker for either raising, or lowering a co-worker
• Suspension device with carry bag, and rescue chair
Other Options:
FS982 Working Chair
*Seat may be purchased separately

G Confined Space System
FS980
• FS970 Aluminum tripod with carry bag
• FS960-50 50’ 3-way recovery system
• FS958-65 65’ Material winch
Other Options:
FS981 50’ 3-way recovery system, carabiner and tripod carry bag (same as FS980 without winch)
